Manalikarai,Kanniyakumari

ABOUT ME

I am a motivated and enthusiastic Python/Django developer. I have a strong interest in web development and enjoy building practical and user-friendly applications. My journey started during my college studies, where I developed my first web projects and discovered my passion for programming. Since then, I have been continuously improving my skills in Python and Django by working on personal projects and learning modern web technologies. I am especially interested in backend development and love solving problems through clean and efficient code. As a fresher, I am eager to learn, grow, and contribute to real-world projects while expanding my knowledge in the field of software development.
